### **Enviro Voraxial Technology to Demonstrate Patented Voraxial<sup>®</sup> Separator In Royal Dutch/Shell Group Booth at 2005 SPE/IADC Drilling Conference and Exhibition**

FORT LAUDERDALE, FL.--(PRNewswire)—February 15, 2005--Enviro Voraxial<sup>®</sup> Technology, Inc. (OTCBB:EVTN) is pleased to announce that Shell Technology Ventures, a registered company of the Royal Dutch/Shell Group (NYSE:RD) will showcase EVTN's line of Voraxial<sup>®</sup> Separators in their Booth (#19) at the 22<sup>nd</sup> SPE/IADC Drilling Conference and Exhibition which will be held in Amsterdam, The Netherlands, February 23 – 25, 2005.

Shell Technology Ventures objective in attending this year's conference is to increase awareness and strengthen relationships between STV and members of the SPE/IADC while providing Enviro Voraxial<sup>®</sup> Technology with the exposure and, hence, the business opportunities with potential customers for EVTN's commercially available line of Voraxial<sup>®</sup> Separators.

The specific applications to be addressed with EVTN's separation technology at this year's SPE/IADC Drilling Conference will be the treatment of produced water and the separation of oil and water at the various steps in the oil production process; namely, extraction, transportation and initial refining of crude oil.

“We are extremely excited to have a premier company like Shell to introduce our separation technology to the oil and gas industry,” said John A. DiBella, Vice President of Enviro Voraxial<sup>®</sup> Technology. “This is part of our continuing effort to seek the aid of well-known and established companies for introducing our products into the marketplace.”

The 22<sup>nd</sup> SPE/IADC Drilling Conference and Exhibition is the result of a joint venture between the Society of Petroleum Engineers and the International Association of Drilling Contractors. With over 64,000 members worldwide, SPE is a professional association whose members are engaged in energy resources development and production. SPE is a key resource for technical information related to oil and gas exploration and production and provides services through its publications, meetings, and online forum. This year's conference was aided through efforts by ExxonMobil and ChevronTexaco and will be held at the RAI Congress Centre in Amsterdam, The Netherlands. For more information about SPE, please visit: <http://www.spe.org/>

## **About Enviro Voraxial<sup>®</sup> Technology**

Enviro Voraxial<sup>®</sup> Technology, Inc.'s patented Voraxial<sup>®</sup> Separator is a cost-efficient, continuous flow separator that simultaneously separates liquid/liquid, liquid/solid or liquid/liquid/solid mixtures at extremely high flow rates while achieving very high levels of purity. The technological superiority of the Voraxial<sup>®</sup> Separator over conventional technologies is in its ability to produce a real-time, high "g" centrifugal force to yield a high-purity product or products at a volume of 3 gallons per minute to over 10,000 gallons per minute. The Voraxial<sup>®</sup> Separator technology is scaleable and nearly universal in its implementation. Although the Voraxial<sup>®</sup> Separator is applicable to almost any industry separation process, the Company is focusing its near-term efforts in the following five vertical markets: municipal wastewater industry, oil exploration and production, oil refineries, mining, and manufacturing.

EVTN is continuing to develop and market its Voraxial<sup>®</sup> Separator as stand-alone technology as well as a key component to improve the efficiency of self-contained treatment systems for multiple applications.

**Safe Harbor Disclosure** -- This Press Release contains or incorporates by reference "forward-looking statements," including certain information with respect to plans and strategies of Enviro Voraxial<sup>®</sup> Technology, Inc. For this purpose, any statements regarding this announcement, which are not purely historical, are forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, including Enviro Voraxial<sup>®</sup> Technology, Inc. beliefs, expectations, hopes or intentions regarding the future.
